

Team Member COVID-19 Update:
Mandatory Weekly COVID-19 Antigen Testing

September 15, 2021

As COVID-19 continues to spread rapidly throughout the State and overwhelm Hawaii's hospital system, it is at the advisement of the Hawaii State Department of Health that The Plaza immediately start regular testing for individuals, not fully vaccinated, that enter our communities.

Recent communication stated weekly testing for unvaccinated (including those who are partially vaccinated) Team Members would begin on October 15, 2021. However, per guidance from the Department of Health, testing will instead begin on September 20, 2021. Any Team Member, not fully vaccinated, that enters a Plaza Assisted Living community will be subject to COVID-19 antigen testing on a weekly basis at minimum. This testing will be at no cost to the Team Member and will be conducted on-site. Those who do not comply with this required testing will be removed from the schedule and subject to disciplinary action up to termination.

Vendors who enter the building, excluding those for deliveries, will also be subject to this weekly testing if not fully vaccinated effective October 15, 2021.
