

COVID-19 Update:

The Plaza at Mililani Community-wide Testing Results

September 29, 2021

Yesterday on September 28, 2021, Premier Medical Group conducted a follow up round of community wide PCR testing at The Plaza at Mililani of all Residents and Team Members. **We are happy to report that all results from this testing were negative, with no additional positive results.**

The recently reported Resident who tested positive for COVID-19 last week has been relocated to an isolation section of the community. All other Residents are quarantining in their apartments.

The Plaza at Mililani will continue to work with the Department of Health and follow their instruction regarding required isolation, quarantining and testing. Arrangements for additional community wide testing through Premier Medical Group have been made for all Team Members and Residents to occur on-site at The Plaza at Mililani on **Tuesday, October 5, 2021 between 7:30am-9:00am**. Testing for Residents will be conducted in their apartments. If all tests are confirmed negative, The Plaza at Mililani will receive the all clear and Residents will be released from quarantine.

At this time, communal activities and dining for the entire community have been cancelled. Meals will be delivered to each Resident in their apartment. Per the Department of Health, all Residents are asked to refrain from non-essential activities outside of the community. Additionally, we are not allowing in-person/on-site visits (except for end of life situations), tours, new admissions and readmissions, until further notice.

We thank you for your patience and understanding as we work expeditiously toward getting The Plaza at Mililani COVID-19 free. In order to achieve this goal, all Team Members are being asked to only focus on the most urgent tasks. During this time, we ask that all non-essential requests be held off.
